

Spectroscopic Data Evaluation Environment

Tailor made software solutions for you

2D & 3D scientific data visualization

Import & Export of all major spectroscopic data formats

Comprehensive mathematical evaluation functions

Professional reporting with customizable templates

Multilingual user interface

Advanced data sharing capabilities with office applications

Add-On Modules

CFR 21 Part 11/GXP compliance ready for regulated environments

Spectroscopic library spectrum search & full text search

Chemometrics (PLS1, PLS2, MLR, PCR,...)

Color analysis

Plug-in interface for OEM instrument control
